Contents

Volume 35, Number 1, February 1996

1 *Gregory T. Epp:* Clonal variation in the survival and reproduction of *Daphnia pulicaria* under low-food stress

11 *Bjørn Rørslett:* Modelling of underwater light in freshwater lakes using survival and failure time analysis

25 *Maarten Boersma and Jacobus Vijverberg:* Food effects on life history traits and seasonal dynamics of *Ceriodaphnia pulchella*

35 *Eric F. Maurer:* Environmental variation and behaviour: resource availability during ontogeny and feeding performance in salamander larvae (*Ambystoma texanum*)

45 *R.K.B. Jenkins and S.J. Ormerod:* The influence of a river bird, the dipper (*Cinclus cinclus*), on the behaviour and drift of its invertebrate prey

57 *Johanna Laybourn-Parry and Peter Bayliss:* Seasonal dynamics of the planktonic community in Lake Druzhby, Princess Elizabeth Land, Eastern Antarctica

69 *A-M. Schwarz, I. Hawes and C. Howard-Williams:* The role of photosynthesis/light relationships in determining lower depth limits of Characeae in South Island, New Zealand lakes

81 *P. Zwick:* Variable egg development of *Dinocras* spp. (Plecoptera, Perlidae) and the stonefly seed bank theory

101 *R. Marchant and C.M. Yule:* A method for estimating larval life spans of aseasonal aquatic insects from streams on Bougainville Island, Papua New Guinea

109 *J.L. Carter, S.V. Fend and S.S. Kennelly:* The relationships among three habitat scales and stream benthic invertebrate community structure

125 *Catherine M. Pringle:* Atyid shrimps (Decapoda: Atyidae) influence the spatial heterogeneity of algal communities over different scales in tropical montane streams, Puerto Rico

141 *Angus R. McIntosh and Barbara L. Peckarsky:* Differential behavioural responses of mayflies from streams with and without fish to trout odour

149 *Bernard Cellot:* Influence of side-arms on aquatic macroinvertebrate drift in the main channel of a large river

165 *Micha Ilan, M. Gal Dembo and Avital Gasith:* Gemmules of sponges from a warm lake

Applied Issues

173 *Shajitha Nawaz and Kevin L. Kirk:* Temperature effects on bioconcentration of DDE by *Daphnia*

179 *K.-M. Vuori:* Acid-induced acute toxicity of aluminium to three species of filter feeding caddis larvae (Trichoptera, Arctopsychidae and Hydropsychidae)

189 *Diederik T. Van Der Molen and Paul C.M. Boers:* Changes in phosphorus and nitrogen cycling following food web manipulations in a shallow Dutch lake

203 **Book Reviews**

Volume 35, Number 2, April 1996

209 *Frank Suhling:* Interspecific competition and habitat selection by the riverine dragonfly *Onychogomphus uncatus*

219 *Beatrix E. Beisner, Edward McCauley and Frederick J. Wrona:* Temperature-mediated dynamics of planktonic food chains: the effect of an invertebrate carnivore

233 *Christoph D. Matthaei, Urs Uehlinger, Elisabeth I. Meyer and Andreas Frutiger:* Recolonization by benthic invertebrates after experimental disturbance in a Swiss prealpine river

249 *C. Edler and W.K. Dodds:* The ecology of a subterranean isopod, *Caecidotea tridentata*

261 *J. Todd Petty and Gary D. Grossman:* Patch

© 1996 Blackwell Science Ltd

selection by mottled sculpin (Pisces: Cottidae) in a southern Appalachian stream

277 *Kevin J. Collier and Michael D. Wakelin:* Instream habitat use by blue duck (*Hymenolaimus malacorhynchos*) in a New Zealand river

289 *Jonas M. Svensson and Lars Leonardson:* Effects of bioturbation by tube-dwelling chironomid larvae on oxygen uptake and denitrification in eutrophic lake sediments

301 *John M. Quinn, Christopher W. Hickey and Wayne Linklater:* Hydraulic influences on periphyton and benthic macroinvertebrates: simulating the effects of upstream bed roughness

311 *Paul D.N. Hebert and Terrie L. Finston:* Genetic differentiation in *Daphnia obtusa*: a continental perspective

323 *J.D. Thomas and P. Eaton:* Accumulation of free amino acids and humic substances in a freshwater modular system and their ecological significance

Opinion

339 *Orlando Sarnelle:* Predicting the outcome of trophic manipulation in lakes—a comment on Harris (1994)

343 *G.P. Harris:* A reply to Sarnelle (1996) and some further comments on Harris' (1994) opinions

Applied Issues

349 *William J. Matthew, Mark S. Schorr and Michael R. Meador:* Effects of experimentally enhanced flows on fishes of a small Texas (U.S.A) stream: assessing the impact of interbasin transfer

363 *Marc Amyot, Bernadette Pinel-Alloul, Peter G.C. Campbell and Joël C. Désy:* Total metal burdens in the freshwater amphipod *Gammarus fasciatus*: contribution of various body parts and influence of gut contents

375 *Wilhelm Foissner and Helmut Berger:* A user-friendly guide to the ciliates (Protozoa, Ciliophora) commonly used by hydrobiologists as bioindicators in rivers, lakes, and waste waters, with notes on their ecology

Volume 35, Number 3, June 1996

483 *S.I. Heaney and S. Maberly:* Jack Talling FRS, master limnologist

489 *E.H. Allison, K. Irvine, A.B. Thompson and B.P. Ngatunga:* Diets and food consumption rates of pelagic fish in Lake Malawi, Africa

517 *N.A. Bondarenko, N. E. Guselnikova, N.F. Logacheva and G. V. Pomazkina:* Spatial distribution of phytoplankton in Lake Baikal, Spring 1991

525 *C.E. Gibson, R.H. Foy and A.E. Bailey-Watts:* An analysis of the total phosphorus cycle in some temperate lakes: the response to enrichment

533 *R.I. Jones, J.M. Young, A.M. Hartley and A.E. Bailey-Watts:* Light limitation of phytoplankton development in an oligotrophic lake – Loch Ness, Scotland

545 *Graham P. Harris and Graham Baxter:* Interannual variability in phytoplankton biomass and species composition in a subtropical reservoir

561 *S.I. Heaney, J.E. Parker, C. Butterwick and K.J. Clarke:* Interannual variability of algal populations and their influence on lake metabolism

579 *S.C. Maberly:* Diel, episodic and seasonal changes in pH and concentrations of inorganic carbon in a productive lake

599 *A. Ojala, S.I. Heaney, L. Arvola and F. Barbosa:* Growth of migrating and non-migrating cryptophytes in thermally and chemically stratified experimental columns

609 *D. Planas, S.C. Maberly and J.E. Parker:* Phosphorous and nitrogen relationships of *Cladophora glomerata* in two lake basins of different trophic status

623 *C.S. Reynolds:* Phosphorus recycling in lakes: evidence from large limnetic enclosures for the importance of shallow sediments

647 *N.A. Rozhkova:* A new endemic caddis fly (Trichoptera, Limnephilidae) from Lake Baikal

649 **Index to Volume 35**
